

Omission: Tomten Sleeve-Cap Shaping
Please print this and add to your copy of SPP#19.

This technique is visible on the cover jacket.

It makes a better fit when the sleeve is inset quite far into the body.

On page 3, under **Sleeves:** following, "Slide underarm sts-on-a-thread onto circular needle, but do not knit them. Turn."

Work to center-top:

k 5, wrap, turn

k 10, wrap, turn

k 15, wrap, turn

k 20, wrap, turn

Continue adding 5 more sts at the end of each row to k 40, wrap, turn. Depending upon your size and gauge, work to more, or fewer than k 40.

Continue **Sleeves** as written.
